To Whom It May Concern

Subject: Cambium Networks cnPilot Wi-Fi support for IEEE 802.11k and 802.11v

Dear Sir/Madam,

The letter hereby confirms the intention of Cambium Networks to extend the cnPilot Wi-Fi access points to include the following features. Although Cambium intends to extend this functionality to all customers by December 17, 2018, Cambium Networks may provide a customer-specific build based upon the last released version.

The support is expected to include:

1. IEEE 802.11k (Radio Resource Measurements)
2. IEEE 802.11v (Wireless Network Management)

Thank you,

A handwritten signature in black ink, appearing to read "Puneet".
